The Budget Acts of 2007 and 2008 appropriated specified amounts from the General Fund for specified programs.

2. When contracting with counties for vacant jail beds for any inmate under the jurisdiction of the Secretary of the Department of Corrections and Rehabilitation, the department shall not reimburse counties more than the average amount it costs the state to provide the same services in comparable state institutions. This restriction shall not apply to any existing contract, but shall apply to the extension or renewal of that contract. In addition, the total operational cost of incarcerating state inmates in leased county jail beds (which includes state costs, but is exclusive of one-time and capital outlay costs) shall not exceed the department's average cost for operating comparable institutions.
3. Notwithstanding any other provision of law, but subject to providing 30 days' prior notification to the Joint Legislative Budget Committee, funds appropriated in Schedule (8) or (9), or both, may be transferred to Item 5225-101-0001, Schedule (7), upon order of the Director of Finance, to provide funds for the reimbursement of counties for the cost of holding parole violators in local jail.
4. Not later than 60 days following enactment of this act, and subsequently on February 10 and upon release of the May Revision, the Secretary of the Department of Corrections and Rehabilitation shall submit to the Director of Finance the Post Assignment Schedule for each adult institution, reconciled to budgeted authority and consistent with approved programs, along with allotments consistent with the reconciled Post Assignment Schedule for each adult institution.
5. Not later than February 17, 2008, the Secretary of the Department of Corrections and Rehabilitation shall submit to the chairpersons and vice chairpersons of the committees in both houses of the Legislature that consider the State Budget and to the Legislative Analyst's Office an operating budget for each of the correctional facilities under the control of the department. Specifically, the report shall include: (a) year-end expenditures by program for each institution in the 2006–07 fiscal year, (b) allotments and projected expenditures by program for each institution in the 2007–08 fiscal year, (c) the number of authorized and vacant positions, estimated overtime budget, estimated benefits budget, and operating expense and equipment budget for each institution, and (d) a list of all capital outlay projects occurring or projected to occur during the 2007–08 fiscal year.

6. Funds appropriated to accommodate projected adult institutional and parolee population levels in excess of those that actually materialize, if any, shall revert to the General Fund.
7. Of the amount appropriated in this item, \$114,058,000 is available for the Consolidated Information Technology Infrastructure Project. Upon determination of the project costs that can be financed using GS \$mart, any balance in excess of the amounts needed for 2007–08 payments shall revert to the General Fund upon order of the Director of Finance. Up to \$86,045,000 may be reverted.
9. The Department of Corrections and Rehabilitation (DCR) shall consult with legislative staff and the Department of Finance (DOF) to define what is and is not allowable in the annual population budget requests, and to reformat the document to make it more transparent to ensure appropriate legislative oversight. The DCR and the DOF shall present an example of the reformed population document to the Legislature prior to the time for deliberations on the Governor’s Budget for the 2008–09 fiscal year.
10. In implementing the Consolidated Information Technology Infrastructure Project (CITIP), the Department of Corrections and Rehabilitation shall, when possible, give first priority to data drops for business services and rehabilitative programming.
12. The Department of Corrections and Rehabilitation shall study the programmatic and fiscal feasibility of providing for rehabilitation information and tracking functionality within the Strategic Offender Management System (SOMS) by either including these requirements as optional in the SOMS Request for Proposal or by including these requirements in the design of a separate system that will communicate and be used in collaboration with SOMS once both systems have been implemented. Additionally, the department shall study the programmatic and fiscal implications of building SOMS to most easily integrate with the systems being implemented by the receiver in the Plata litigation as opposed to building SOMS with differing parameters but much higher future system integration costs. The department shall, in all future cost estimates, include a section detailing future system integration costs, justifying the proposed system design with respect to future integration costs, and specifying why alternate

- system implementation options with lower future integration costs are unsuitable for system design.
13. Of the funds appropriated in this item, \$600,000 is allocated to the State Commission on Juvenile Justice, pursuant to Section 1798.5 of the Welfare and Institutions Code, to develop a Juvenile Justice Operational Master Plan.
